

NGNPUK

Fundraising for syringe drivers

NGNPUK are a small group of friends raising money for syringe drivers which give essential pain relief in palliative care.

These magic machines cost £1391 each and there are NOT enough readily available at the moment.

Some people who need their pain managing have to wait and others never get one. Our aim is to raise funds to provide more of these so no one has to wait.

Can you help us make a difference?

Please visit our website

<http://ngnpuk.weebly.com> to read our story, join our team or donate if you can.

Alternatively, you can donate via our sponsor form.

Our first fund raising event is the 50 mile Marholm sportive bike ride on 17th May 2015.

This is happening now. Help us to make that difference.
